

HILLSBORO, OR

Confidential Data Center

Cherry City teamed up with Rosendin in a joint venture to build three new data centers buildings.

Cherry City partnered with Rosendin in a joint venture to construct three state-of-the-art data centers buildings. The project encompassed 1,080,000SF of data center core and shell, along with a complete interior build-out. This collaboration delivered advanced infrastructure and high-performance systems designed to support large-scale data operations.
