

SAN JOSE, CA

Kaiser Permanente Skyport Medical Office Building

Complete electrical for Kaiser's 4-story, 153,000 sq. ft. Skyport clinic, supporting power, lighting, and systems for medical care, lab, pharmacy, optometry, and wellness services.

Our team delivered complete electrical systems for the new 4-story, 153,000 sq. ft. Kaiser Permanente Skyport Medical Office Building. This state-of-the-art facility includes adult and pediatric care, women's health, orthopedics, sports medicine, dermatology, podiatry, and peritoneal dialysis. We supported advanced infrastructure for pharmacy services, a full-service lab, optometry and Vision Essentials, and the Healthy Living education center. Our scope included power distribution, lighting, and infrastructure to support specialized medical equipment.
