

SANTA MONICA, CA

Nordstrom Santa Monica Place

Nordstrom Santa Monica Place included new 3,000-amp service and two retail floors with cafés. Despite delays, it opened on time and won the 2011 LA/NECA Electrical Excellence Award.

Nordstrom Santa Monica underwent a $2.7 million electrical renovation of a former May Co. store in the Santa Monica Place Mall. Morrow Meadows installed a new 3,000-amp service at the loading dock and distributed power approximately 350 feet to the store. The project included two floors of retail space, The Blue Stove Café, and Ebar. Despite a three-month delay at the start, the store opened on time and earned the LA/NECA Electrical Excellence Award in 2011.

MARKET SECTOR

- Retail

DELIVERY METHOD

- Design-Build & Engineering

CLIENT/OWNER
Nordstrom, Inc.

GENERAL CONTRACTOR
Matt Construction Corporation
