

PORTLAND, OR

Portland Community College (PCC) Sylvania Health Technology (HT) Renovation

Renovation of 127,000 SF, occupied 1960s building, upgrading security, fire alarm, and lighting systems, and replacing obsolete switchgear.

Electrical upgrades for the renovation of the PCC Sylvania's Health Technology building included modernizing fire alarm, lighting, and security systems, replacing end-of-life switchgear, and optimizing power distribution for new classroom and physical education spaces. The project also supported the addition of an inclusive all-user locker room and enhanced accessibility throughout. These improvements contribute to a more energy-efficient, welcoming, and inclusive environment that supports health, wellness, and collaboration on campus.
